

Hi Jeff,

It was a pleasure meeting you and speaking with you regarding a couple of golf simulator options for your garage. I've attached a few photos of recent installations of the Premium3 (FLAT) and Premium4 (CURVED).

- We can extend the turf to the 22' deep as requested and it will be one full piece of turf. No step up.
- We can add (6) putting cups.
- If you would like to go with the EyEXO2 high-speed camera, you would add \$3,000.00 to the invoice.
- If you would like to add the multi-sport camera and software package, you would add \$7,950.00 to the invoice. The Multi-sport can be added anytime in the future as well.
- We are currently sitting at a 3-4 week install date.
- We would require a 50% deposit with the remaining balance due after installation and training.
- We have a 24/7 white glove customer service team. We want to make sure you are well taken care of even after the installation. Once a customer always a customer.
- We will not charge for installation (normally \$3,500.00).

Here is a recap of the golf simulator options you wanted me to put together for you:

### **Option 1 - Premium3\_Flat Screen**

- **Simulator:** Premium3 flat screen (14' wide x 9'-10" high x 15' deep)
- **Hitting Screen:** 194" (164" x 102") crease free FLAT
